-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **Detailed Action**

The 35 USC 112, 1<sup>st</sup> paragraph (enablement) rejection is withdrawn in view of applicants' arguments and the Kasahara Declaration.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35-54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 35, 52-54 (and dependent claims) are vague in that the functional relationship of the oncoretroviral polynucleotide sequence comprising LTR sequences at the 5' or 3' or 5' and 3' end of the oncoretroviral polynucleotide sequence to the other components of the replication competent retroviral vector are unclear, i.e. do the oncoretroviral LTRs flank the retroviral gag, pol and env sequences? Also, in the last line of each of these claims, the words "in to" should be one word "into".

Claims 36 and 41 are vague in that they depend from cancelled claim 1.

Claim 39 is vague in that there is no antecedent basis for the term "the tissue-specific promoter" in claim 36.

Claim 40 is vague in that there is no antecedent basis for the term "the androgen response element (ARE) tissue-specific promoter sequence" in claim 37. Claim 40 is also vague in the recitation of the term "derived from" because it unclear how closely related the tissue specific promoter is to the starting material (the probasin promoter).

Art Unit: 1636

The metes and bounds of the claimed subject matter are unclear because it is unclear what ARE promoter sequences would be considered to be derived from the probasin promoter and which would not.

Claim 51 is vague in that there is no antecedent basis for the term "the retroviral vector" in claim 35.

No Claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
